## To Mr Ralph

Things go better in N.Y. City & Binghamton. It is sonice for one. but in Cal-Arts I had serious problem in my situation and multimedia Lab, which is money problem. I got a budget on the paper, may be I shall have only 1/4 of approved budget. Under such condition, my plannings of this year in Cal-Arts are clashed but I have aduty and responsibility for students of any course. and how can we realize our idea?, and I have one solution that make NO. 2 Video Synthesiger in Cal Arts from my private money, and after June Ishall sell it to some student or other university that want to have.

Pahaps, new synthesizer will have much software in her body.

and I want to finish it till middle of January. After that,

I shall have time for you.

Sorry I came to Binghamton now.

Dec. 17/71
